STLC New Security System

The new security system will be put in place at the STLC building and fully functional during the month of November to ensure the safety of our residents, our visitors, and our employees.

Just a reminder of a few things regarding this system:

VISITOR PARKING is specifically located in front of the building and around to the side of the 300 unit—Signs will mark this appropriately. The 400-unit lots at the front of the building to the left as you enter and the 500-unit lot (behind the building) are **EMPLOYEE ONLY PARKING**.

The main entrance at the front of the building will be the **ONLY** entrance available for visitor use and it will be locked at ALL times. All other doors will be for emergency exits only OR will require an employee badge for access including those at the back of the building on the 500 unit. Wheelchairs will be available as needed for any visitor requiring assistance in visiting with those residents located at the furthest distance from this front door. If you attempt to enter any other door—staff is not going to be allowed to let you in and they will be disciplined up to and including termination for doing so.

Visitors may enter the main door either by using a Visitor Badge (each resident is provided up to 4 badges) for immediate access or by using the 2-way intercom video system. Simply let staff know who you are there to visit with and entry will be allowed at any time of day. Please be aware that entry without a badge after normal business hours and on weekends may take a few minutes depending on staff assignments and resident care needs being met.

Due to the expense of the badges being used, we will be unable to replace any lost badges you have been given. You will still be provided with access into the building but you will have to use the intercom system and wait for assistance.

If you have not picked up your badges—please call the Administrator who can assist you in doing so.
